STRYKER SURGICAL
COMMITTED
TO YOUR SUCCESS.

Stryker®
Floor Fluid Management

The standard in creating a dry and efficient surgical environment
Staff Satisfaction
- Maintaining a dry surgical environment leads to increased staff satisfaction
- Quiet wicking action reduces unwanted noise in the operating room
- Green Solution – QuickWick Mats are made from up to 60% recycled materials
- High level of service from Stryker Surgical Sales Force

Performance
- Higher fluid capacity when used with the Neptune Gold Waste Management System when compared to canisters
- QuickWick Mats are made with super absorbent materials, allowing the mats to hold 14 times their weight in fluid
- Stryker suction products offer a quiet solution that removes fluid in an efficient and effective manner

Safety
- Stryker suction products help keep operating room floors clean and dry for staff traffic
- Towels and blankets quickly become heavy and saturated with potentially infectious fluid waste, evacuating this fluid reduces disposal costs and the amount of staff exposure
- Stryker QuickWick Mats are made with super absorbent material that locks fluid in

Efficiency
- Proactively removing fluid from the operating room enables faster turnover time
- Multiple suction pores reduce possibility of clogging, minimizing staff time devoted to product maintenance, allowing more time to focus on patient care
- Simple and intuitive design allows for easy set up and disposal
- Pliable material allows for easy maneuverability and repositioning of mats

What solution fits your hospital’s needs?
- Stryker® QuickWick™ Mats
- Stryker® Suction Mats
- Stryker® Suction Ring
- OSHA Regulations
- Finance Options
Stryker®

Your Total Waste Management Solution

What solution fits your hospital’s needs?

**Stryker® QuickWick™ Mats**
- Super absorbent material locks in 14 times its weight in fluid
- Green solution – made from up to 60% recycled materials
- Robust absorbent material does not become slippery when wet
- Wide variety of mat options create a customized solution for every OR need:
  - QuickWick Mats offered with plastic backing provide a barrier, reducing the risk of fluid escaping during disposal
  - QuickWick Mats offered with tape further secure mats to the OR floor, minimizing the amount of movement
  - QuickWick Multi-Purpose Mat is durable, making it ideal for high traffic areas

**Stryker® Suction Mats**
- High suction flow rate quickly evacuates fluid from the OR
- Permeable non-slip top layer prevents fluid from pooling on the surface, keeping feet dry
- Comfort mat may reduce surgeon fatigue from standing on hard OR floors for long periods of time
- Towels and blankets quickly become heavy and saturated with potentially infectious fluid waste, evacuating this fluid reduces disposal costs and the amount of staff exposure

**Stryker® Suction Ring**
- High suction flow rate quickly evacuates fluid from the OR
- Quiet wicking action reduces unwanted noise in the OR
- Pliable material allows for easy maneuverability and repositioning of device
- Hundreds of suction pores reduce the amount of device dropping or suctioning to the floor, decreasing product maintenance time

**OSHA Regulations**
1910.141(a)(3)(ii)
- The floor of every workroom shall be maintained, so far as practicable, in a dry condition. Where wet processes are used, drainage shall be maintained and false floors, platforms, mats, or other dry standing places shall be provided, where practicable, or appropriate waterproof footwear shall be provided.
